

SHED MASTER[®] GDO-8

DESIGNED FOR ALL WEATHER

THE OPENER THAT GOES WHERE OTHERS WON'T

With a tough, IP24 rated weather resistant housing, the Shed Master[®] is perfect for exposed applications like perimeter doors and open carports. With a keyed lockout for added security and slim fit design, it is ready for harsh and testing environments.

And just because it's rugged doesn't mean this roll-up door opener doesn't have brains. Standard features also include Intelligent Safety System, Door Profiling and Automatic Technology's own high security TrioCode™128 transmitter system. This opener will tell you when it's due for a service and prevents unauthorised entry with a built-in lockout system. If you need a solution to last in all weather conditions then this is the opener for your door.

WHAT'S IN THE BOX:

Weather Resistant Opener

Two TrioCode™128 transmitters

Keyed Lockout

AT A GLANCE:

WEATHER-RESISTANT HOUSING

Designed for installation on uncovered or exposed doors, this opener has a weather resistant rating of IP24.

SECURE & RELIABLE TRANSMITTERS

The TrioCode™128 transmitter system ensures secure and reliable home access. It transmits on three frequencies to defeat radio interference, and uses a 128-bit encryption protocol (with trillions upon trillions of random codes*) for the ultimate in security.

*340,282,366,920,938,463,463,374,607,431,768,211,456 codes

KEYED & ELECTRONIC LOCKOUT

As the Shed Master[®] can be installed in exposed locations, a keyed lockout is included to stop unwanted persons reaching over the fence and disengaging the door to manual mode. Also, the control panel can be similarly locked out to prevent unauthorised usage.

INTELLIGENCE

This opener is top of its range with built-in intelligent features such as Intelligent Safety System and Door Profiling – meaning the door adjusts itself when opening and closing or if blocked.
