- Features patented Panel-Loc[™] safety technology
- C2, C3 & C4 rated doors available

designed to *glide*[™]

Extra Protection when Extreme Pressure is Applied

Cyclone Rated Windlocked Sectional Door

Gliderol's Storm•Safe™ Sectional Door has been uniquely designed using patented Panel-Loc™ technology, which provides the ultimate in safety and durability.

Designed in Australia and locally manufactured, the Gliderol Storm•Safe™ Sectional Door is engineered to withstand Australia's harshest weather conditions. The sleek and innovative design adds extra protection when extreme pressure is applied.

Gliderol's independently tested patented Panel-Loc™ technology incorporates aluminium end caps into every panel, interlocking with a specially designed aluminium upright to automatically lock in place should a cyclonic event occur.

With all windlocking built direct into the door itself, your Gliderol Storm•Safe™ door is always storm-ready and requires no manual preparation or intervention.

Storm•Safe's™ lightweight design eliminates heavy and cumbersome components, reducing overall weights resulting in maximum strength, with minimal fatigue, over the life of the door.

Durable aluminium Panel-Loc™ door hardware is not only easy to install, but corrosion resistant and neat in appearance.

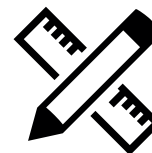

With state-of-the-art technology, you can be confident Gliderol's Storm•Safe™ Sectional Door will safeguard your home, keeping your family and your property protected.

Panel-Loc™

Patented Panel-Loc™ safety technology

Enhanced security of your assets

Hard-wearing & high performance

Independently tested to AS/NZS 4505:2012

Colorbond®

Available in a wide range of Colorbond® steel colours

Key Features of Your Storm•Safe™ Sectional Door

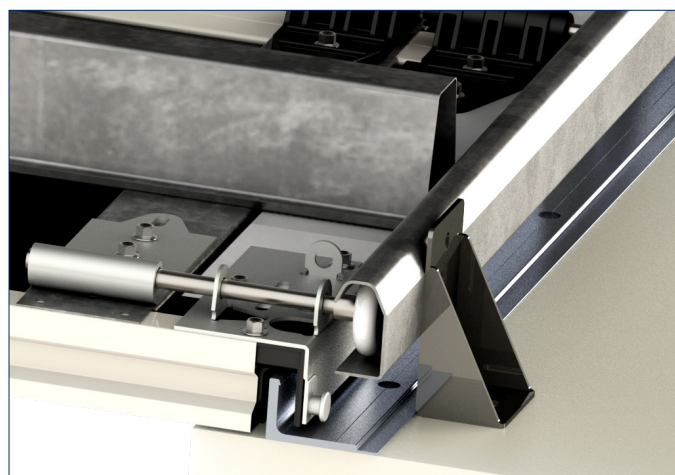

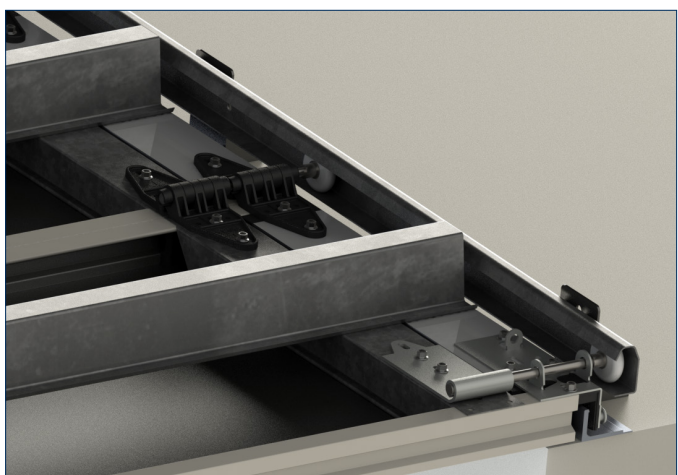

Panel-Loc™ Aluminium End Caps

Panel-Loc™ Aluminium End Caps are fitted to either end of every Storm•Safe™ door panel. With patented windlocking channel molded directly into each end cap, panels automatically lock in place around the Panel-Loc™ Uprights with no preparation required.

Panel-Loc™ Aluminium Uprights

Fixed securely at either end of the door opening, Panel-Loc™ Aluminium Uprights provide a solid anchor point for Panel-Loc™ end caps, delivering a lightweight interlocking safety system without the need for additional posts or fixings.

Door Configuration	Door Size Range (Maximum)	
	Height (mm)	Width (mm)
Cyclone Rated SSC2 Panel Doors (C2 Compliant - Postless)	3600	6100
Cyclone Rated SSC3 Panel Doors (C3 Compliant - Postless)	3600	5510
Cyclone Rated SSC3 Posted Panel Doors (C3 Compliant)	3600	5511 - 6100
Cyclone Rated SSC4 Panel Doors (C4 Compliant - Postless)	3600	3210

Designing Your Storm•Safe™ Sectional Door

Pick your Door Profile & Finish (Available In a Smooth or Woodgrain)

Oxford

Classic Georgian squares for a traditional look. Each square is precision pressed in manufacturing for quality & strength.

Hampton

An elegant design incorporating rectangular embossments for a classic, yet strong style.

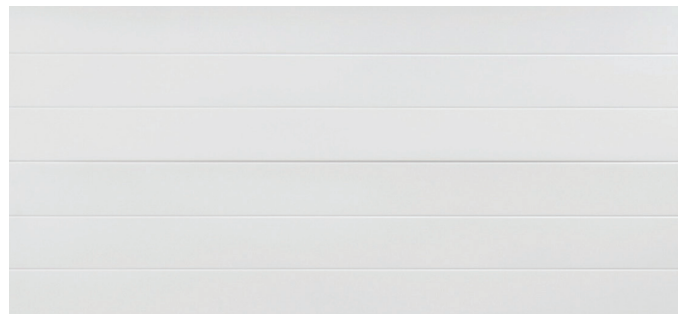

Madison

Clean, sharp lines with an optional textured finish to perfectly blend with rendered homes.

Tuscan

A timber planked style door. Horizontal “V” grooves create a sleek and contemporary look.

Motor & Remote Control Options
